

# STIMULATE™

**GENERAL INFORMATION:** **STIMULATE™** is a highly concentrated, diverse microbial formulation with dozens of naturally occurring strains of beneficial microorganisms selected to improve soil biology, convert unavailable nutrients to usable forms, and produce plant usable nutrients and other substances that improve plant health. **STIMULATE™** now contains a genetically superior Rhizobia inoculant system for improved nitrogen utilization in a broad range of crops.

**STIMULATE™** can be applied to the seed, soil, or foliage and works throughout the season to increase yield.

**INGREDIENTS:** Highly concentrated liquid formulation manufactured at 10<sup>9</sup> strength with dozens of naturally occurring strains of beneficial microbes.

**DIRECTIONS:** Use 8 to 16 oz/A in-furrow or 2x2 band, use 12 to 16 oz/A as a soil broadcast spray, 6 to 8 oz/A as a foliar spray, or 1 to 8 oz/100 lb as a seed treatment depending on the size of seed. **STIMULATE™** can substitute for the water carrier in seed treatment mixtures. **STIMULATE™** can be applied in fertilizer solutions, impregnated on dry fertilizer, and used in tank-mixtures with pesticides.

**STORAGE:** For optimum performance, store product under cool conditions. Avoid high heat or freezing.

**SAFETY INSTRUCTIONS:** **STIMULATE™** contains only naturally occurring, non-genetically modified and non-pathogenic microorganisms. It is generally non-corrosive and is non-toxic to plants and animals. Product meets local, state and federal health and transportation requirements. Keep out of reach of children.
