

GENERAL INFORMATION

Should be used in very poor water quality environments. The higher use rate provides significant levels of ammonium sulfate (AMS) and a concentrated water conditioning system that is aggressive at rendering CA, Mg, Fe unavailable for chemical tie-up. The AMS allows the water droplets to remain in a liquid state for longer periods of time, ammonium ions, and additional water conditioning.

MIXING INSTRUCTION

Add **CONDITION EXTRA™** first and allow dispersion before adding other ingredients.

DIRECTIONS

1. Always follow pesticide label for best results.
2. Determine rates, typical rates are 2-4 qts/100 gl. Very "hard" water may require the 4 qt. rate.
3. Add **CONDITION EXTRA™** to tank first and agitate.
4. Add remaining ingredients in order according to the pesticide manufacturer's label.

CONDITION EXTRA™

WATER CONDITIONING SYSTEM

INGREDIENTS:

Concentrated Ammonium Sulfate, Blend of Water Conditioning Agents, and Formulating Aids 100%

CONDITION EXTRA™ ingredients are exempt from requirements of a tolerance as specified in federal regulation 40 CFR 180.1001 (d)

CAUTION

May cause skin and eye irritation
Avoid eye and skin contact · Do not take internally
KEEP OUT OF REACH OF CHILDREN

GARRCO PRODUCTS, INC.

P.O. Box 619
Converse, IN 46919-0619
Phone: 765.395.3441
Web Site/MSDS: www.garrco.com

STORAGE AND DISPOSAL

Protect from freezing. Store above 32°F. Do not reuse empty container. Dispose of container in accordance with federal, state, or local regulations.

FIRST AID

Skin & Eyes - Flush with plenty of water. Consult a physician if irritation develops or persists.
Ingestion - Give plenty of water if conscious. Do not induce vomiting. Seek medical attention immediately.

Wear appropriate protection to avoid eye and skin contact.

Seller makes no warranty of fitness or merchantability. Buyer agrees that seller's maximum liability shall not exceed the purchase price of this product.
