

GENERAL INFORMATION

VISION PINK™ is a concentrated dye designed to be used with agricultural foam marking concentrates. **VISION PINK™** colors foam to a brilliant pink color. The pink color significantly increases visibility of the foam and is especially beneficial during conditions when the ground is covered with snow or there is low light, fog or sunset.

USE DIRECTIONS

For marking foam, use 1-2 oz. of **VISION PINK™** per 10 gallons of foam solution. Water hardness, mineral content and other variables may effect the use rate. Adjustments may be made according to individual conditions.

Note: Water which has a high minerals content may have an affect on the color concentration needed for a specific application. The rate of **VISION PINK™** may be adjusted to reach the desired color strength.

STORAGE

Store **VISION PINK™** in plastic containers and protect from freezing. If product should freeze, bring to room temperature and stir thoroughly.

VISION PINK™

FOAM DYE CONCENTRATE

CAUTION

May cause skin and eye irritation.

Avoid eye and skin contact.

Do not take internally.

KEEP OUT OF REACH OF CHILDREN

GARRCO PRODUCTS, INC.

P.O. Box 619
