

CONTROL DUO™ is a very effective, easy-to-use, multi-functional adjuvant that provides superior drift mitigation and enhanced pesticide uptake. **CONTROL DUO™** mitigates drift by increasing deposition and retention while significantly lowering evaporation. The premium surfactant system in **CONTROL DUO™** improves penetration of pesticides, nutritionals, and biologicals.

CONTROL DUO™ contains the research and field proven **CONTROL WM™** polymer blend in combination with a unique and highly effective surfactant system. The unique surfactant system in **CONTROL DUO™** produces less driftable droplets than most surfactants.

Factors that influence the optimum rate of **CONTROL DUO™** include efficacy, spray mixture components, application method, speed, pressure, nozzle type, and proximity to sensitive non-target areas. Use the higher recommended rates when applying at high application speeds and when mixing with chemicals that reduce spray droplet size.

CONTROL DUO™ may be used in aquatic applications at labeled rates.

Recommended rates of **CONTROL DUO™** are 1 to 6 qt/100 gal for ground and aerial applications. **CONTROL DUO™** is approved for use with dicamba and 2,4-D formulations. Always agitate when adding any product to the spray tank.

CONTROL DUO™

PREMIUM DRIFT MITIGATION, DEPOSITION, RETENTION, AND SURFACTANT SYSTEM

INGREDIENTS:

Nonionic Surfactant Blend, Polymer Blend, and Formulation Aids 100%

All ingredients are exempt from tolerance requirements under 40 CFR 180.1001

KEEP OUT OF REACH OF CHILDREN

GARRCO PRODUCTS, INC.

Documents at www.garrco.com

Always use best spray management practices and follow pesticide label directions. **CONTROL DUO™** by itself will not totally eliminate the potential for spray drift.

**WARNING: Harmful if swallowed.
Causes eye irritation.**

PRECAUTIONARY STATEMENTS:

Do not eat, drink or smoke when using this product. **If swallowed:** Call a POISON CENTER or doctor/physician if you feel unwell. **If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do - continue rinsing.

FIRST AID: Eye contact: Check for and remove contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately. **Ingestion:** Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.

STORAGE AND DISPOSAL

Store above 32° F and prevent freezing. Do not reuse empty container. Dispose of container in accordance with federal, state, or local regulations.

Read Safety Data Sheet before using this product.
