

CONTROL DUO LS™

Nonionic Surfactant and Spray Drift Mitigation/Deposition System

2 Great Highly Effective Products in 1 Easy-to-Use Package

- **CONTROL DUO LS™** is a multi-functional combination of a superior nonionic surfactant (NIS) system and the highly effective **CONTROL WM™** drift mitigation adjuvant (DRA).
- **CONTROL DUO LS™** does not produce as many fine droplets as most surfactants do.
- **CONTROL DUO LS™** contains a polymer blend proven to mitigate drift while increasing pesticide deposition on the target, usually 2-fold.
- **CONTROL DUO LS™** humectant properties extend absorption time by allowing the spray deposits to remain in a liquid state longer.
- **CONTROL DUO LS™** provides deeper penetration of the spray solution into the canopy.
- **CONTROL DUO LS™** is compatible with all glyphosate formulations.

Tank-mix of fertilizer, fungicide and insecticide

- 2 gal/A
- 42 flat fan nozzles
- 145 mph

Droplet size and deposition with fungicide

- 3 gal/A
- CP-A256-4025 nozzles
- 135 mph
